

# LINDEN FABRICATING LTD.

## EXCEPTIONAL WORKMANSHIP, QUALITY & SERVICE

Since 1972, Linden has been delivering quality metal fabrication to the resource industries in North America. Our decades of experience are your assurance that every project will be undertaken by a team of highly skilled steel detailers and steel fabricators who take pride in the quality of their work.

Certified by the Canadian Welding Bureau, Linden has built a reputation for on time and on budget delivery of superior products. We will complete the most complex fabrication to meet the most stringent specifications for reliability and functionality. We deal with change orders and updated specifications with cooperation and efficiency and with our quality assurance systems, our customers can rely on Linden to meet schedules without compromising quality or cost efficiency

Our fully equipped manufacturing facility is located in Prince George, BC, the transportation hub of Northern B.C. with easy access to all major rail and truck routes for conventional and oversize transportation.

Linden ... where customer service and quality work is always first!
